EDUCATION

Bachelor of Technology (B.Tech) in Artificial Intelligence & Machine Learning

2026

Dr. A.P.J. Abdul Kalam Institute of Technology

PROJECTS

Retail Sales Performance & Trend Analysis using Power BI

- Designed an interactive Power BI dashboard to analyze retail transaction datasets, track revenue metrics, and evaluate customer buying patterns.
- Applied Power Query for data cleaning and transformation, and constructed dynamic DAX measures for KPIs including Total Revenue, Average Order Value, and MoM Growth %.
- Created visual reports highlighting regional performance (West vs East), top revenue-generating categories (Electronics & Clothing), and customer payment preferences (UPI & Net Banking).

E-Commerce Sales & Profitability Dashboard using Power BI and Excel

- Built a comprehensive Power BI analytics dashboard to monitor profit margins, order quantities, and customer-wise revenue distribution.
- Transformed raw transactional data using Power Query and created custom measures to track sub-category profitability and seasonal sales trends.
- Visualized high-margin product categories (Printers & Bookcases), analyzed monthly profit fluctuations, and identified customer revenue concentration for business risk mitigation.

Video Gaming Industry Analytics & Performance Dashboard using Power BI and Excel

- Developed a multi-page Power BI dashboard analyzing gaming industry trends, platform market share, developer ratings, and historical profits (1981–2020).
- Cleaned and modeled complex datasets using Power Query and DAX to calculate User vs. Critic average scores, profit trends, and platform sub-category counts.
- Generated executive insights on top-performing developers (Nintendo EAD, Game Freak), platform dominance (PlayStation & Nintendo), and profit evolution over four decades.

TECHNICAL SKILLS

Programming	Python, SQL
Python Libraries	Pandas, NumPy, Matplotlib, Seaborn
Database	MySQL
Data Analysis	Pandas, NumPy, Microsoft Excel, Power BI
Data Visualization	Matplotlib, Seaborn, Excel Charts, Power BI
SQL Concepts	JOINS, Subqueries, CTEs, Aggregate Functions, Window Functions, GROUP BY, HAVING
Excel	Pivot Tables, XLOOKUP, Conditional Formatting, Dashboard Creation
Power BI	Power Query, DAX, Interactive Dashboards, KPI Reports
Tools	Git, GitHub, VS Code, MySQL Workbench

ACHIEVEMENTS

- Participated in the Smart India Hackathon (SIH) and collaborated in a team to develop an innovative solution for a real-world problem.

ADDITIONAL INFORMATION

Strengths	Problem Solving, Analytical Thinking, Team Collaboration, Communication Skills, Quick Learner
Languages	English, Hindi, Punjabi
